With coverage of the latest mass spectrometry technology, this book explains how mass spectrometry can be used to enhance almost all phases of drug discovery and drug development, including new and emerging applications. The book's fifteen chapters have been written by leading pharmaceutical and analytical scientists. Their contributions are based on a thorough review of the current literature as well as their own experience developing new mass spectrometry techniques to

Certificate of Registration

This Certificate issued under the seal of the Copyright Office in accordance with title 17, *United States Code*, attests that registration has been made for the work identified below. The information on this certificate has been made a part of the Copyright Office records.

Maria A. Pallante

Register of Copyrights, United States of America

Registration Number

TX 7-698-611

Effective date of registration:

March 1, 2013

Title

Title of Work: Mass Spectrometry for Drug Discovery and Drug Development (9780470942383) 3

Completion/Publication

Year of Completion: 2012

Date of 1st Publication: January 18, 2013

Nation of 1st Publication: United States

International Standard Number: ISBN 9780470942383

Author

Author: John Wiley & Sons, Inc. employer for hire of Walter A Korfsmacher

Author Created: compilation, editing, preface

Domiciled in: United States

Copyright claimant

Copyright Claimant: John Wiley & Sons, Inc.

111 River Street, Hoboken, NJ, 07030, United States

Limitation of copyright claim

Material excluded from this claim: some previously published material

New material included in claim: compilation, editing, preface

Certification

Name: Allison Castellano

Date: February 21, 2013
